It's was not easy to move on...

The guy asked for money or he will send that video* to all my contact numbers

"♥🌂🚫🦁"

My personal Report of cyber crime is totally wastage of time

Very bad lost my whole Money

Very bad experience but trying to cope up with it

Never happened

Phone's call scam

It didn't happen with me but those who have gone through that would have effected their life somehow and my personal suggestion to all those people who hv gone or not gone through it is.... never share any kinda detail with anyone u don't knw exactly abt secondly don't download any app abt which u don't know how it works or the process of it's working thirdly never open a link which does not contain https....links with http are not secure and can harm or invade ur devices.here s stands for secure
